

care instructions.

(1)

Move all the items from the refrigerator and arrange them on an empty surface next to it. Take a picture of the objects' arrangement. Clean the refrigerator. Separate expired or undesired items from the arrangement and move the rest items back to the refrigerator. Take a picture of the new arrangement.

(2)

Empty the surface of the bathroom countertop, as you are going to clean it, moving all the objects to a free surface around. Document the object's arrangement on this surface.

Clean the countertop.

(3)

Make your bed.

Document the result during the daytime.

(4)

Play out loud a “classical music” composition and vacuum clean the carpet/floor of your living space while it is playing. The choice of composition depends on your definition of the word “classical”.

Record the sound of the space while cleaning the floor.
